Database - SQL & UserDefaults

API - REST

Notification - APNS

Payment - Instamojo SDK

Setva Setu Service Provider

<https://itunes.apple.com/in/app/sevasetu-serviceprovider/id1355638845?mt=8>

Role - Sr.Developer

Responsibility - Development, Testing and Release

Functionality - Barcode Scanner, Get delivery status

Project Details: Shree Maruti Courier Services is one of the Asia Pacific's leading courier services and an integrated express package distribution company with high reliability and satisfactory ratio. As we developed an iOS application with following features.

- This application is dedicated for Channel Partner (CP) Manager
- Manager can view data of Business statistics of their respective branch (e.g.: Total Collection, Total Booking Count, Delivery Status Count)
- User can have list of clients of his/her branch with their detail
- Shipment Tracking
- User can view their profile

Tool - Xcode (10.1)

Programming language - Swift (4.2.4)

Database - SQL & UserDefaults

API - REST

Notification - APNS

Scanning - BarCode scanning SDK

AppWriter

<https://itunes.apple.com/dk/app/appwriter/id557545530?mt=8>

Role - Developer

Responsibility - Development, Bug Fixes, Testing and Release

Functionality - Custom Keyboard, OCR, Text To Speech, Speech To Text, Create

Document, Google Drive SDK, OneDrive SDK, Highlight Speech, Localisation

Project Details: AppWriter provides help with reading and writing through a range of features such as context-based word suggestions, text-to-speech, OCR scanning and a pdf reader.

Tool - Xcode (10.1)

Programming language - Objective C

Database - SQL & UserDefaults

API - REST

Notification - APNS

Reading - TTS SDK

OCR - OCR SDK

TxtAnalyser

<https://itunes.apple.com/dk/app/txtanalyser/id1112067148?l=da&mt=8>

Role - Developer

Responsibility - Development, Bug Fixes, Testing and Release

Functionality - YouTube Video, Core Text, Analyze grammar, Analyze Spellings, Localisation

Project Details: TxtAnalyser is a unique language application that finds and corrects spelling and grammatical mistakes. It also supports multiple languages and provides suggested video. Suggested videos come from YouTube which users can play inside an iOS application.

Tool - Xcode (10.0)

Programming language - Objective C

Architecture - MVC

Database - SQL & UserDefaults

API - REST

Garvi Gurjari

<https://itunes.apple.com/in/app/garvi-gurjari-online-shopping/id1436462563?mt=8>

Role - Developer

Responsibility - Development & Bug Fixes

Functionality - Push Notification, Payment SDK
